Subject: Historic Commission

I am fully in support of the proposed Historic Commission for Zionsville.

In the 30+ years I've lived here, I've seen many houses torn down and replaced, especially in The Village, with homes that would be better suited for a suburban location.

I've also seen houses hurriedly torn down, leaving the lot vacant for years.

The Village is a special place...for residents and for visitors. Dedicated residents have tried for the last 30 years (years that I know about) to protect the small-town feel of The Village. I hope that this attempt by them and those who stand behind them is at last successful!

Thank you.
